Dial Them Up Automated Calling Services

DialThemUp

- Group Calling
- Reminder Messages
- Call Transfer
- Interactive Voice Response
- Real-time Reporting

Keep your congregants, associates, and staff informed and connected. Dial Them Up's timesaving automated dialing and voice broadcast messaging services let you create customized phone messages and deliver them to everyone on your call list in minutes.

Our calling service includes applications that many other providers charge extra for, such as bilingual options, call transfer to an extension, or playing a different message if an answering machine picks up. There are no setup charges, contracts, hidden fees, or expiration of credits. No equipment to buy or software to install. And you pay only for completed calls.

Streamline Your Communications

Voice Broadcasting and Group Calling

From routine reminders to urgent notifications, you can create and launch customized messages to multiple groups in minutes. You control message delivery times and the number of call attempts. End the frustration of waiting for calls to be picked up or repeatedly leaving messages on answering machines.

Interactive Voice Response (IVR)

Dial Them Up lets you custom-design IVR menus for both inbound calls and outbound calls, with keypad or voice response. Provide after-hours service by offering menu options to quickly provide callers with basic information such as directions or worship schedules, or to give them emergency contact numbers.

Real-time Reporting

Instantly see the time your broadcast call was made, call duration, and if there was a live pickup, busy signal, answering machine pickup, or transferred call.

Reminder Calls

Use timesaving automated reminder call service to free up your staff and your phone lines. Contact groups large or small in minutes. You can record a message

THE DIAL THEM UP ADVANTAGE

Dial Them Up is unique in that we own and control our own calling network and powerful telephony technology, capable of handling an inexhaustible volume of call traffic. We also employ a redundant network for added reliability. Because we own the network, we can pass the savings on to you.

Compare our prices to those offered by other providers and you'll see that our pricing is typically up to 20% to 50% less than our competitors for comparable services. We don't rely on hidden fees or gimmicks such as changing rates after the first 30 seconds or first minute of each call. We guarantee that the rate you are quoted is the rate you pay — not a penny more.
